

— WEB PARTNER FOR LOCAL BUSINESSES

What you're *actually paying for.*

This isn't a \$29 Wix subscription. It's a custom site, the plumbing behind it, and one person who owns it end to end — sized to your revenue, shipped in 48 hours.

OWNERSHIP

Yours — all of it

Code, domain, data, Google profile. No subscription to anything I provide.

SPEED

48 hours

Deposit locks the build. Live before most agencies send their first invoice.

BUILT FOR YOU

Not a theme

Custom code. No Wix. No Shopify. No templates.

TIER 01

Launch

Clean presence. Custom site, mobile-ready, on Google.

TIER 02 · ★

Foundation

Launch + lead capture, email alerts, SEO, Google Maps.

TIER 03

Authority

Foundation + 6 months managed. Scoreboard + content swaps.

— WHY NOT JUST WIX IT

Cheap up front. Expensive across three years.

Most owners look at \$29/month and think it's the bargain. Run the math on time, rent, and the work you didn't know had to happen — the math flips.

PATH A · DIY / WIX

You, on your weekends.

Or you, never getting around to it.

YOUR TIME

40–80 hours

Learning a builder, picking a template, writing copy, wrestling with images.

SUBSCRIPTION RENT

\$612 – \$1,400

\$17–\$39/mo × 36 months. You pay forever. You own nothing.

TEMPLATE TRAP

400+ look-alikes

The same theme running on hundreds of other Winnipeg sites.

HIDDEN PLUMBING

Missing by default

Schema, meta, Google Business sync, form reliability, mobile edge cases.

PATH B · FJMEDIA

Me, on a 48-hour clock.

You, back to running the business.

YOUR TIME

30 minutes

One fit call. Photos, logo, a few words. I handle the rest.

ONE-TIME FEE

Sized to revenue

Priced against the lift the site drives. Not the hours I spend building it.

BUILT FOR YOU

One of one

Custom design, custom copy, your photos. Nothing running on another business.

PLUMBING, HANDLED

Live on day one

Schema, meta, Google Business, reliable forms, mobile tested.

DIY isn't cheaper. It's **delayed and thinner**. Paid in weekends, monthly rent, and customers who bounced off a site that looked like everyone else's.

Sources · Wix pricing: wix.com/upgrade · Squarespace pricing: squarespace.com/pricing · Retrieved April 2026.

— THE INVISIBLE WORK

What's happening *behind the build.*

A site isn't one thing — it's fifteen. Most owners never see this list. You're paying for every item on it.

01 Design

Before a line of code

Layout from scratch

Your sections, your flow. Not a drag-and-drop theme.

Copy that sells

I write the headlines and body. You don't stare at a blank box.

Photo direction

Which photos help, which hurt. Cropping, order, pairing.

02 Build

Custom code, every page

Custom HTML/CSS

No theme. No builder. Fast, clean, nothing extra.

Mobile tested

iPhone, Android, tablet, desktop. Every screen.

Forms that notify you

Contact / booking form wired to email. Inquiries hit your inbox on submit.

03 Setup

The plumbing Wix skips

On-page SEO

Title tags, meta, Open Graph, schema. Google knows who you are.

Google Business Profile

Set up or optimized. Pin, hours, photos, category — live in local search.

Analytics wired in

Traffic, sources, pages read. Real data, not theory.

04 Launch

The part that goes live

Domain + DNS

Your address pointed at the live site. HTTPS from day one.

Speed checks

Images compressed, fonts trimmed, scripts minimized. Loads on 4G.

QA pass

Every link, every form, every button — tested before customers see it.

05 Watch

After launch — the part nobody includes

Free changes window

30 days to 6 months of edits on me. No meter.

Monitoring

Forms and uptime watched. I see breaks before you do.

One person to call

Not a ticket. Not a bot. Same number every time.

— FIGHT CAMP, THREE DEPTHS

Same work. Different depth.

Every tier includes the build and the plumbing on page 3. What changes is how much of the ongoing work I own after launch. Pick the one your revenue can back.

TIER 01

Launch

"You're in the ring."

Solo operators and small shops. No site yet, or one that's embarrassing to send people to.

INCLUDES

- 5–7 page custom site
- Mobile, tablet, desktop
- Contact form → your inbox
- Domain + hosting wired
- Indexable on Google

AFTER LAUNCH

- 30 days of free changes

TIER 02

MOST PICKED

Foundation

"Corner, trainer, game plan."

Staffed shops with booked schedules. You want the site to capture leads, not just look good.

EVERYTHING IN LAUNCH, PLUS

- Booking / order form with logic
- Google Sheets CRM (every lead logged)
- Email alerts on every inquiry
- Google Business optimized
- On-page SEO (title, meta, OG, schema)

AFTER LAUNCH

- 3 months of free changes

TIER 03

Authority

"Full camp behind you."

Multi-staff or multi-location. You want the site managed — no DIY, no forgetting about it.

EVERYTHING IN FOUNDATION, PLUS

- Analytics + monthly scoreboard
- Seasonal content swaps (menus, pricing, photos)
- Local SEO monitoring
- Priority support · 24 hr response
- Quarterly strategy sit-down

AFTER LAUNCH

- 6 months of managed maintenance

PRICING

Quoted on the 15-min fit call — sized to your revenue.

SHIPS IN

48 hours from deposit.

AFTER THE INCLUDED WINDOW

**Keep me on.
Or don't.**

Maintain · \$150/mo

Month to month. Cancel anytime.

Updates, form monitoring, uptime checks, monthly analytics snapshot. The site stays healthy without you thinking about it.

Grow · \$300/mo

Month to month. Cancel anytime.

Maintain plus content swaps, local SEO monitoring, and a 1-on-1 sit-down each month — what's working, what to change.

— PRICING LOGIC

You're paying for *what it brings back.*

Not hours. A cut of the revenue lift the site drives over three years. That's why the price lives on a fit call — I need your numbers first.

THE RULE OF THUMB

Roughly 10% of the annual revenue lift the site is expected to drive.

Two extra customers a month at your margin — that's the number the site is worth. Price is a slice of that, paid once. Not **rent forever**.

WHY NO LIST PRICE

A \$400/yr side hustle and a \$500K shop shouldn't pay the same.

Same build, different backing. Quoting blind is how agencies overcharge small ops and **underdeliver** to bigger ones.

AGENCY

\$5,000 – \$10,000

4–8 weeks. Deposit up front. You're a project number.

WIX / SQUARESPACE

\$17 – \$39 / month

Forever. Templates. You own nothing.

FJMEDIA

Fair · One-time

Sized to your revenue. You own all of it.

THE COMPOUND

2 extra customers a month × 36 months = your payback window.

Run the math with your own average ticket. Most builds pay back in the first quarter, then work free for the next 2.75 years.

EXAMPLE A · BAKERY

Two extra orders a month at \$50.

Monthly lift	+\$100
Annual lift	+\$1,200
Three-year lift	+\$3,600

Site pays for itself inside year one.

EXAMPLE B · AUTO DETAILING

Two extra jobs a month at \$250.

Monthly lift	+\$500
Annual lift	+\$6,000
Three-year lift	+\$18,000

Site pays for itself in month three.

Sources · Wix + Squarespace pricing: wix.com/upgrade, squarespace.com/pricing (retrieved April 2026) · Agency range: general industry observation — ranges vary by shop · 10% revenue-lift: FJMedia internal pricing rule.

— OWNERSHIP, NOT RENT

Your site. *Actually yours.*

When we're done, nothing about this site runs on my permission. Here's what you walk away with.

01

The code

Every file. Yours to keep, move, or hand off. Nothing locked behind my login.

02

The domain

Registered in your name, on your account. If we ever part ways, the address stays yours.

03

The data

Every lead, every form submission — in your Google Sheet, on your account. Export it, move it, keep it.

04

The Google profile

Your Business Profile, under your login. I optimize it, you own it. Reviews, photos, hours — all yours.

THE LOCK-IN TAX

Stop paying **Wix / Shopify** — your site disappears.

Subscription lapses, site goes dark. Three years of work, gone. The content lived on their servers the whole time.

Stop paying **me** — your site keeps running.

Hosting yours. Domain yours. Retainer ends, the site doesn't. That's the difference between renting and owning.

HANDOFF KIT

Credentials doc

Every login — registrar, hosting, Google, analytics. One page, in your inbox.

HANDOFF KIT

Site backup

Full zip of the site files. Next developer picks up where I left off — no rebuild.

HANDOFF KIT

Walkthrough video

10 minutes. Scoreboard, where leads land, how to swap a photo yourself.

DELIVERED AS ONE EMAIL ON LAUNCH DAY.

— FROM CALL TO LIVE

Three days. *That's the whole thing.*

Most agencies take a month to send an invoice. This is the full timeline — call to live site on your domain.

01 The fit call DAY 0 · 15 MIN

Revenue, margin, what the site needs to do. Real number before you hang up. Quote good for 7 days.

02 Your 30 minutes DAY 1 · INTAKE

Logo, photos, a few sentences. Email or shared folder. That's your job done.

03 The build DAY 1-2 · 48 HRS

Design, copy, build, forms wired, Google profile set, every screen checked. Preview link when it's done.

04 The handoff DAY 3 · LIVE

Domain pointed. HTTPS on. Analytics ticking. Walkthrough — forms, scoreboard, where leads land.

05 The window 30 DAYS — 6 MONTHS

Free changes window opens day one. Typo, photo swap, new section — text me. No meter.

COMMITMENT 01

If I'm not the fit, I say so on the call.

Wrong stage, wrong niche, wrong budget — I tell you on the call. No proposal theater.

COMMITMENT 02

One person on the build. Same person after.

No account manager, no junior handoff. Same number for quote, build, and the year after launch.

COMMITMENT 03

Deposit + balance. No subscriptions from me.

Half to lock, half on launch. Retainer is month to month — no yearly lock-in.

Built by one person. Shipped at one standard.
