

Get Online — \$300

\$300 One-Time

Entry-level package: event sites, landing pages, linktrees, simple one-page sites. Clean, custom, live in days.

What's Included

- Clean, custom one-page site (hand-coded, no templates)
- Mobile-optimized across all devices
- GitHub Pages hosting (free, no monthly fees)
- Delivered in days, not weeks
- Upsell path: Get Found (\$600) for a full multi-page site with SEO

Fulfillment Steps

STEP 1

Intake — Determine Site Type

- What type of page? Event site, linktree/link hub, landing page, or simple info page
- Client name, business name, brand colors or vibe preference
- For events: event name, date, venue, address, time, prize list + photos
- For linktrees: Instagram handle, all links (phone, email, socials, booking), avatar/photo
- For landing pages: business info, key message, contact method, any images

STEP 2

Build the Site

- Create folder: FJMedia/Websites/[Client Name]/
- Build Website.html — single page, branded to their vibe
- Mobile-first — must look perfect on phone (most traffic from Instagram shares)
- For events: Hero, Event Details, Prize Gallery (polaroid cards + lightbox), Footer
- For linktrees: Avatar, bio, branded link buttons, all contact/social links
- For landing pages: Hero, key info section, contact form or CTA, Footer

STEP 3

Images & Assets

- Process all images through Pillow if needed (resize, crop, optimize)
- Set object-position per image — faces must never be cut off
- Place all images in assets/images/ subfolder

STEP 4

Internal QA Before Preview

- All links/buttons work correctly
- All images load on mobile
- OG tags set for proper social sharing previews
- No placeholder content or broken elements
- If event site: lightbox works, all details accurate

STEP 5

Deploy to GitHub Pages

- Create empty public repo on GitHub under fjdmedia account
- Push project to master branch
- Enable GitHub Pages: Settings → Pages → Branch: master → root → Save
- Share preview URL with client for approval

STEP 6

Client Approval + Payment

- Send preview URL — give client 24hrs to review
- Make any last changes requested
- Collect payment via e-transfer
- Confirm the link is live and shareable

STEP 7

Post-Delivery Upsell

- After delivery, pitch upgrade: 'Now that you're online, want a full site with SEO and lead capture? That's Get Found at \$600.'
- Reference the Get Online build as proof of quality
- If interested, start the Get Found (\$600) intake process
