

Own the Market — \$1,600

\$1,600 One-Time

A full digital system, done for you. Everything in Get Customers plus analytics, SEO, and 6 months managed.

What's Included

- Everything in Get Customers (\$1,000)
- Google Analytics setup + monthly performance snapshot
- Seasonal content updates (menu changes, pricing, photos)
- Ongoing local SEO monitoring
- 6 months of managed maintenance included
- Priority support — 24hr response time

Fulfillment Steps

STEP 1

Intake — Gather Everything Upfront

- Same as Get Customers intake
- Ask for: Google Analytics account (or create one for them)
- Ask for: content update cadence — how often do services/prices/photos change?
- Set expectations: you will handle updates for 6 months, then retainer pitch

STEP 2

Build the Website + Backend

- Follow all steps from Get Customers build
- Include all SEO tags and schema from the start

STEP 3

Google Analytics Setup

- Create or access client's Google Analytics 4 property
- Add GA4 tracking script to Website.html
- Set up Goals: form submission as a conversion event
- Link Google Analytics to Google Business Profile (if applicable)
- Verify data is flowing — check Real-Time report after deployment

STEP 4

On-Page SEO + Local SEO

- Complete all SEO steps from Get Customers
- Submit site URL to Google Search Console
- Request indexing in Search Console
- Set a 30-day baseline — screenshot rankings + traffic at launch

STEP 5

Internal QA Before Preview

- All Get Customers QA items pass
- GA4 tracking confirmed — events firing correctly
- Search Console connected and verified
- All content accurate and final

STEP 6

Deploy + Domain Setup

- Same as Get Customers deployment steps
- After domain is live, update GA4 and Search Console with final URL

STEP 7

Google Business Profile Optimization

- Same as Get Customers GBP steps
- Also: set up Q&A; section with 3–5 common questions pre-answered
- Enable messaging if client is comfortable responding

STEP 8

Client Approval

- Full demo: site, backend CRM, GA4 dashboard, GBP profile
- Show them exactly what they're getting for 6 months
- Collect payment via e-transfer

STEP 9

Custom Domain Setup

- Same as Get Customers domain steps

STEP 10

Monthly Maintenance (Months 1–6)

- Month 1: Launch check — confirm all forms, analytics, GBP live
- Months 2–6: Process any content update requests within 48hrs
- Each month: pull GA4 report — note top pages, traffic sources, conversions
- Send client a 1-page monthly snapshot (traffic, inquiries, top source)
- Flag any drops in traffic or form errors immediately
- Month 5: Begin retainer pitch — 'Your 6 months is almost up — here's how we keep the momentum going'

STEP 11

Handoff + Retainer Pitch at Month 6

- Review 6-month performance snapshot with client
- Present Grow retainer (\$300/mo) — frame it as maintaining the system you built
- Offer Maintain retainer (\$150/mo) as the lighter option
- Request testimonial with real numbers (traffic, inquiries, revenue impact)
- Ask for referrals — 'Do you know any other business owners who could use this?'
