

# Maintain Retainer — \$150/mo

## \$150 / Month

---

*Keep the site healthy and the backend running. For clients who want peace of mind without ongoing strategy.*

### What's Included

- Site updates on request (text, images, pricing, hours)
- Form + Google Apps Script monitoring
- Monthly analytics report
- All links and buttons checked monthly
- Response within 48 hours on all requests

### Fulfillment Steps

#### STEP 1

#### Retainer Kickoff (Month 1)

- Confirm client's preferred contact method (IG DM, email, text)
- Set expectations: updates processed within 48hrs, monthly report delivered by the 5th
- Confirm Google Sheet access (check it's still logging correctly)
- Pull baseline analytics report for Month 1 comparison
- Confirm all forms and links are working at retainer start

#### STEP 2

#### Monthly — Update Requests

- Process any content updates the client sends (new photos, updated pricing, hours change)
- Make edits in the local HTML file, test locally, then push to GitHub
- Confirm changes are live and notify client
- Log the update in a simple notes doc (date, what changed) for your own records

#### STEP 3

#### Monthly — Backend Check

- Submit a test form — confirm email arrives AND Google Sheet logs the row
- Check GAS deployment is still live (script.google.com → Manage Deployments)
- If GAS is broken: redeploy, update URL in HTML, push to GitHub
- Check Web3Forms email backup is still receiving (send test, check inbox)

#### STEP 4

#### Monthly — Analytics Report

- Pull Google Analytics 4 data: sessions, users, top pages, traffic sources
- Note any significant changes vs. last month
- Write a 1-page plain-English summary: what's up, what's down, what it means
- Send to client by the 5th of each month

## STEP 5

### Monthly — Site Health Check

- Open site on mobile + desktop — confirm nothing looks broken
- Click all navigation links and CTA buttons
- Check all images load correctly
- Verify custom domain SSL is still active (padlock shows in browser)

## STEP 6

### Retainer Renewal + Upsell (Every 3 Months)

- Check in proactively: 'Hey, things are running smoothly — just wanted to see how business has been.'
- Share any notable analytics wins
- If they're growing, pitch upgrade to Grow (\$300/mo): 'At this stage, we could be doing more — content updates, SEO monitoring, and a monthly strategy sit-down.'
