Notes

- Customize final quotes per client scope and complexity.
- Never disclose pricing upfront — reveal only after the client sees and approves the build.
- Always point clients toward Get Customers (\$1,000) — it's the closer.
- Get Online (\$300) is the entry ramp — upsell to Get Found (\$600) after delivery for a full site with SEO.
- Retainers (\$150–\$300/mo) are upsold after the included free-changes period expires.
- Industry price ranges above are benchmarks only — use to anchor perceived value in conversations.
- Next price raise: jump to \$800/\$1,400/\$2,200 once first testimonial with hard conversion numbers lands.
