Ships in 48 hrs.

TIER 02 · ★

Foundation

Launch + lead capture, SEO, Google Maps.

TIER 03

Authority

Foundation + 6 months managed, monitored, reported.

— THE STARTER

Launch

Quoted on
fit call

Solo operator or small shop • \$75K–\$200K/yr revenue.

15 MIN • SIZED TO YOUR REVENUE

"You're in the ring."

Clean presence for solo operators and small shops. You need to exist online, look credible, and give customers a way to reach you — without agency prices. Launch is the floor.

WHAT'S INCLUDED

5–7 pages, custom built

A website built for your business from scratch — not pulled from a template library.

Templates read as generic in 3 seconds. Custom earns the trust that closes the sale.

Contact form

One form on your site that sends messages straight to your inbox.

One clean channel beats "DM me on Instagram." Professional, trackable, always on.

Indexable on Google

Google can find your site when someone searches your exact business name.

Without it, you don't exist on Google. Anyone searching for you lands on a competitor.

Mobile, tablet, desktop

Your site resizes cleanly on every screen people actually use.

More than half your traffic is phones. A site that breaks on mobile loses the customer before they scroll.

Domain + hosting wired

Your own business address (yourshop.ca) connected to a live, always-on server.

You own the address. Nobody can take it from you. No site-builder holding your site hostage.

Free changes for 30 days

One month after launch, edits are on us.

You'll spot things you want tweaked once it's live. This window is when those tweaks are free.

CANADIAN BASIC

\$1,500

Site-builder / starter

CANADIAN STANDARD

\$3,500–\$5,000

Typical small-biz agency build

Foundation

BEST VALUE

Quoted on
fit call

Staffed shop, booked schedule • \$200K–\$500K/yr revenue.

15 MIN • SIZED TO YOUR REVENUE

"Corner, trainer, game plan."

For staffed shops with booked schedules. Inquiries already come in — Foundation makes sure none slip through. Every lead tracked, every message routed, nothing dropped between rounds.

WHAT'S INCLUDED

Everything in Launch

Full Launch tier — custom site, mobile-ready, domain, contact form, Google index, 30-day grace.

You need the base site first. Foundation builds the capture system on top.

Google Sheet auto-logs every inquiry

Every form submission lands in a live Google Sheet you can open anytime.

Every lead tracked, searchable, exportable. No lost names, no "who was that again?"

Google Maps listing setup

Your business set up on Google Maps with photos, hours, and reviews linked.

When someone searches "detailer near me," your shop shows up — or your competitor does.

3 months free changes

Three months after launch, edits are on us.

A booked shop changes things constantly. This covers it while the site settles in.

Order/booking form with live pricing

A form that calculates price as the customer fills it out, then books the job.

Customers answer their own "how much?" question. You get a qualified booking, not a cold lead.

Instant email alerts

Every time a form is filled, you get an email in under 60 seconds.

Speed closes. Leads cool fast — reply in minutes, not next morning.

On-page SEO tags

Title tags, meta descriptions, and structured data written for every page.

Google needs to read you right to rank you right. Tags tell Google what you do.

CANADIAN STANDARD

\$3,500–\$5,000

Small-biz build, no lead capture

CANADIAN ADVANCED

\$6,000–\$10,000

Agency build with booking + SEO

FJ MEDIA

Below market • Quoted on call

Pays back in 3–6 customer jobs.

— THE FULL SYSTEM

Authority

*Multi-staff or multi-location · \$500K+/yr revenue.***Quoted on
fit call**

6 MONTHS MANAGED · SIZED TO REVENUE

"Full camp behind you."

For multi-staff or multi-location operations. You don't have time to run the site — Authority runs it for you. Scoreboard, swaps, rankings, hands-off. You focus on the business.

WHAT'S INCLUDED

Everything in Foundation

The full Foundation site — lead capture, CRM, email alerts, Google Maps, SEO tags, 3-month grace.

Authority stacks on top. Same engine — now actively run by someone watching.

Seasonal content swaps

Menus, pricing, photos, services — updated every season so the site reflects the business today.

A site that says "Summer Menu" in October reads as neglect. Stale sites lose trust.

6 months upkeep included

Six months of managed maintenance baked into the build fee — no monthly retainer yet.

Half a year hands-off before any monthly bill shows up. Retainer optional after.

Quarterly strategy sit-down

One scheduled hour every 3 months to review the numbers and plan the next move.

A \$500K+ business changes plans. We sync every quarter so the site keeps up.

Monthly scoreboard

One monthly report showing lead volume, where they came from, and the next thing worth fixing.

You shouldn't have to ask "is the site working?" The scoreboard tells you.

Google ranking monitoring

We watch where you rank for your key local searches every month.

Rankings shift constantly. Someone has to watch. That's us.

24-hr text reply, no queue

Text us directly — reply within 24 hours, no ticket system.

When the booking form breaks at 8pm Saturday, you need an answer by Sunday, not next week.

CANADIAN BASIC

\$3,500–\$5,000 + \$100–\$300/mo

Small-biz build + light retainer

CANADIAN MANAGED

\$6,000–\$10,000 + \$300–\$800/mo

Full agency build + retainer

Quoted on fit call

Updates, uptime, forms working. Monthly traffic email. You run the business — we run the site.

Grow

Quoted on fit call

Maintain + monthly content, Google monitoring, and a call to plan the next move. For owners who want the site earning.

You're not paying for a website. You're paying for the *business it brings in*.

Ships in 48 hours. Deposit locks the build, balance on launch — you see it live first. Priced to your revenue. Built by one person, start to finish.

NEXT STEP

Book the 15-minute fit call.

15 minutes. We match you to a tier and quote on the call. Real number before you hang up — no proposal loop.
