

— WEB PARTNER FOR LOCAL BUSINESSES

Three packages. *One standard.*

Custom-built websites for Winnipeg businesses. *Site ships in 48 hours.* No Wix. No Shopify. No templates. The ranges inside show what these same builds cost across Canada — *your price is quoted on a short fit call*, sized to your business.

01 · SERVICE

What you're getting.

The deliverable. Specific. No filler.

02 · MECHANISM

What it's doing.

Why the feature matters — in car terms.

03 · WHEN

When you need it.

Your situation. Your tier. No guessing.

Launch

Solo operator or small shop · \$75K–\$200K/yr revenue.

15 MIN · SIZED TO YOUR REVENUE

Quoted on
fit call

01 · SERVICE

Custom 5–7 page website.

Built from scratch. No templates.
Loads on any phone or laptop.
Home, About, Services, Gallery,
Contact — or whatever your
business needs.

02 · MECHANISM

The body of the car.

Your business is the car. Your
website is the body — what
anyone decides about you in
seconds. A template site is a dent
covered with a sticker. Built from
scratch is panels, paint, and
trim that tell people this thing
actually runs.

03 · WHEN YOU NEED IT

You don't have a site — or the one you have is embarrassing you.

DIY builder. Outdated. Broken on
mobile. Or nothing at all and
you're sending people to your
Instagram. Launch is the floor
every business needs.

Foundation

BEST VALUE

Quoted on
fit call

Staffed shop, booked schedule • \$200K–\$500K/yr revenue.

15 MIN • SIZED TO YOUR REVENUE

01 • SERVICE

Everything in Launch, plus lead capture.

Order or booking form that shows the price live as they fill it out. Every inquiry saves itself to a Google Sheet. Email alert the second it happens. Your Google Maps listing dialed in.

02 • MECHANISM

The engine and the dashboard.

Launch is the body. Foundation is the engine — the site goes from sitting pretty to actually driving the business. Every inquiry lands on your dashboard. Google knows where you are. Nothing falls through the cracks because every gauge is live.

03 • WHEN YOU NEED IT

Inquiries are coming in — but you're losing track.

DMs, texts, missed calls, notes on scraps. Or you're invisible on Google and don't know how to fix it. Foundation is the right call when you want the site to earn, not just exist.

WHAT'S INCLUDED

- Everything in Launch
- A Google Sheet where every inquiry saves itself — no more scraps
- Your Google Maps listing set up so locals actually find you
- 3 months of free changes after launch
- Order or booking form that shows the price live

6 MONTHS MANAGED · SIZED TO REVENUE

01 · SERVICE

Everything in Foundation, then we don't leave.

Monthly check-in on the numbers that matter. Seasonal swaps to menus, prices, and photos. Google monitoring. Text us — 24-hour reply. Quarterly sit-down to look at the data and plan the next move.

02 · MECHANISM

Regular service so it doesn't rot in the driveway.

Most small-business sites don't get serviced — stale menus, broken forms, quietly falling off Google. Oil goes stale, tire pressure drops, check-engine light stays on. Authority is the monthly tune-up: fresh content, working forms, Google still finding you, someone watching the gauges so you don't have to.

03 · WHEN YOU NEED IT

You know the site should keep working — you just don't have time.

You're booked. The last thing on your plate is logging into a dashboard. Authority is the fit when you want someone to own the whole digital side and send you the numbers.

WHAT'S INCLUDED

- Everything in Foundation
- Seasonal swaps to menus, prices, and photos
- 6 months of upkeep — no extra charge
- A sit-down every 3 months to look at the numbers and plan next moves
- Monthly check-in with the numbers that matter — visitors, sources, clicks
- Google monitoring — if it slips, we fix it
- Text us, we reply within 24 hours — no ticket queue
- Site ships in 48 hours · Deposit to start, balance on launch

Maintain

Quoted on fit call

Updates when you need them. Forms stay working. Site stays online. Monthly email with your visitor numbers. You stay in your business — we handle the site.

Grow

Quoted on fit call

Everything in Maintain — plus monthly content updates and Google monitoring. One-on-one each month to go over the numbers and plan the next move. For owners who want the site earning, not just existing.

You're not paying for a website. You're paying for the *business it brings in*.

Every site ships in 48 hours. Deposit to lock your build, balance on launch — you see it live before the rest is due. Pricing is sized to the revenue your business already does, so the site pays itself back in customer jobs. Built by one person, start to finish — which is why the quality is consistent and the accountability is total.

NEXT STEP

Book the 15-minute fit call.

We look at your numbers, match you to the right tier, and quote on the call. No proposal back-and-forth, no surprise invoice — you get a real number before you hang up.

— WHERE THESE NUMBERS COME FROM

Sources & Methodology.

Every range in this overview comes from published 2026 Canadian pricing data, with one US source for cross-reference. All figures are CAD unless marked. Click through and verify.

clutch.co/web-designers/pricing

Used for: Industry-wide cross-reference. Most web design projects on Clutch cost less than \$10,000 USD; platform average is \$38,105 USD. USD converts ~36% higher in CAD, which makes Canadian comparisons more favourable.

Methodology. FJMedia prices sit below Canadian mid-range while the Winnipeg case study portfolio builds out. At 8–10 verified cases, package pricing moves to market rate. Retainers already sit at the Canadian low end. Every CAD range on the comparison strips matches a published tier from the sources cited above — no figures are extrapolated or rounded beyond what the sources state. If a source contradicts a claim, the claim gets updated.
