

Event Site — \$300

\$300 One-Time

Wedding socials, fundraisers, ticketed events. Single-page site with prize gallery + event details.

What's Included

- Single-page event website
- Prize gallery with lightbox (click to expand images)
- Event details section (date, venue, address, time)
- Shareable link via GitHub Pages
- Hosting for duration of the event
- Upsell path: Get Found (\$600) after event for permanent business/brand page

Fulfillment Steps

STEP 1

Intake — Gather Everything Upfront

- Event name, date, venue name, full address, time (doors open, event start)
- Ticket price (if applicable)
- Prize list — names + photos of all prizes (regular + grand prizes)
- Brand colors or theme preference (dark/light, color scheme)
- Client's contact info for the site (optional)
- Any special sections needed: schedule, performers, sponsors

STEP 2

Build the Site

- Create folder: FJDMedia/Websites/[Client Name]/
- Build Website.html — single page
- Sections: Hero (event name + date), Event Details, Prize Gallery, Footer
- Prize gallery: polaroid-style cards with lightbox on click
- Separate prizes into tiers if applicable (regular prizes, grand prizes, golden ticket)
- Mobile-first — this site gets shared on Instagram, must look perfect on phone

STEP 3

Prize Images

- Process all prize images through Pillow if needed (resize, crop, optimize)
- Set object-position per image — faces must never be cut off
- Name files clearly: prize_1.jpg, prize_grand_1.jpg, etc.
- Place all images in assets/images/ subfolder

STEP 4

Internal QA Before Preview

- Lightbox opens and closes on all prizes
- Event details are accurate (date, time, venue, address)
- All prize images load correctly on mobile
- Sharing the link on mobile shows a proper preview (OG tags set)
- No broken images or placeholder content

STEP 5

Deploy to GitHub Pages

- Create empty public repo on GitHub under fjdmedia account
- Push project to master branch
- Enable GitHub Pages: Settings → Pages → Branch: master → root → Save
- Share preview URL with client for approval

STEP 6

Client Approval + Payment

- Send preview URL — give client 24hrs to review
- Make any last changes (prize updates, typo fixes)
- Collect payment via e-transfer before sharing the public link
- Confirm the link is shareable and correct before client posts it

STEP 7

Post-Event Upsell

- After the event, reach out: 'Hope it went great! If you ever want a permanent site for your business, I can build that for \$600.'
- Reference the event site as proof of what you can do
- If they're interested, start the Get Found (\$600) intake process
