

Grow Retainer — \$300/mo

\$300 / Month

Maintain plus content, SEO, and a monthly 1-on-1. For clients who want to grow, not just maintain.

What's Included

- Everything in Maintain (\$150/mo)
- Monthly content updates (new photos, seasonal copy, service additions)
- Local SEO monitoring (rankings, GBP activity, new reviews)
- Monthly 1-on-1 sit-down (review data, what's working, what's next)
- Priority support — 24hr response time
- Proactive recommendations — you flag opportunities before they ask

Fulfillment Steps

STEP 1

Retainer Kickoff (Month 1)

- Complete all Maintain kickoff steps
- Schedule recurring monthly 1-on-1 (30 min, video or in-person)
- Ask: what are your goals for the next 3 months? (more bookings, more reviews, more foot traffic?)
- Set a content update plan: what changes seasonally? what photos are they missing?
- Pull baseline analytics + GBP stats for Month 1 comparison

STEP 2

Monthly — All Maintain Steps

- Complete all steps from the Maintain retainer each month
- Process updates within 24hrs (priority support tier)

STEP 3

Monthly — Content Update

- Collect any new photos or content from client (DM or email)
- Update relevant sections: gallery, services, seasonal specials, team bios
- Push changes to GitHub — confirm live
- If no new content: proactively suggest something ('Summer is coming — want to update your hero photo?')

STEP 4

Monthly — Local SEO Monitoring

- Check Google Business Profile: any new reviews? Respond to each one
- Check GBP insights: search queries, profile views, direction requests
- Note any ranking changes for primary keywords (manual check or free tool)
- Flag any competitor activity worth responding to
- If client has no reviews yet: send them a Google review link and ask them to share it with recent customers

STEP 5

Monthly 1-on-1 Sit-Down

- Review the month's analytics: traffic, inquiries, conversions
- Review GBP performance: views, calls, direction clicks
- Discuss what's working and what to improve
- Agree on next month's priorities (new photos? updated pricing? new service?)
- This meeting is about the relationship as much as the data — show up, be present
- Document action items — follow through before next month's call

STEP 6

Quarterly Review + Upsell Check

- Every 3 months: pull a full performance report (traffic trend, conversion rate, GBP growth)
- Present wins — give them a reason to feel good about the investment
- If they're ready to go further: pitch a one-time project (new landing page, Google Ads setup, etc.)
- Ask for a referral: 'Do you know anyone else who could use something like this?'
